The funeral of Charles Henry Topping on Manhattan’s Upper East Side would have been a minor affair (his two-hundred-word obit in The New York Times notwithstanding) but for the presence of one particular mourner: the notoriously reclusive author A. N. Dyer, whose novel Ampersand stands as a classic of American teenage angst. But as Andrew Newbold Dyer delivers the eulogy for his oldest friend, he suffers a breakdown over the life he’s led and the people he’s hurt and the novel that will forever endure as his legacy. He must gather his three sons for the first time in many years—before it’s too late. So begins a wild, transformative, heartbreaking week, as witnessed by Philip Topping, who, like his late father, finds himself caught up in the swirl of the Dyer family. First there’s son Richard, a struggling screenwriter and father, returning from self-imposed exile in California. In the middle lingers Jamie, settled in Brooklyn after his twenty-year mission of making documentaries about human suffering. And last is Andy, the half brother whose mysterious birth tore the Dyers apart seventeen years ago, now in New York on spring break, determined to lose his virginity before returning to the prestigious New England boarding school that inspired Ampersand. But only when the real purpose of this reunion comes to light do these sons realize just how much is at stake, not only for their father but for themselves and three generations of their family.

Season two follows Carmen "Carmy" Berzatto (Jeremy Allen White), Sydney Adamu (Ayo Edebiri) and Richard "Richie" Jerimovich (Ebon Moss-Bachrach) as they work to transform their grimy sandwich joint into a next-level spot. As they strip the restaurant down to its bones, the crew undertakes transformational journeys of their own, each forced to confront the past and reckon with who they want to be in the future. Of course, it turns out the only thing harder than running a restaurant is opening a new one, and the team must juggle the insane bureaucracy of permits and contractors with the beauty and creative agony of menu planning. The transition brings a newfound focus on hospitality as well. As the entire staff is forced to come together in new ways, pushing the boundaries of their abilities and relationships, they also learn what it means to be in service, both to diners and each other. Blood Meridian is a powerful and subversive tale of violence and depravity that challenges the conventions of the Western and the Wild West mythology. It follows the journey of the Kid, a 14-year-old Tennessean who joins the ruthless gang of scalphunters led by the menacing Judge Holden in the 1850s Texas-Mexico borderlands. The gang roams the land, murdering Indians and profiting from their scalps in a nightmarish world of lawlessness and savagery. While based on historical events, the story is a blend of fact and fiction, centered around the Kid and the Glanton gang, whose escapades reveal the grim reality of early American expansion and the depths of human depravity.

The film will chart the true story of two Scottish lads from Dundee who conned the international music industry by adopting American accents and pretending to be established Californian rap duo, Silibil N' Brains. In the late 90's, Gavin Bain (McLean Ross) and Billy Boyd (Bottomley) had their musical ambitions consistently ridiculed for having the 'wrong' accents, so they went for broke and reinvented themselves as Californian rappers. McAvoy's movie will show how the duo re-recorded their own tracks with fake accents and turned up in London claiming to be an established duo on the Cali scene as well as childhood friends with Eminem. They quickly bagged themselves a record deal, a hefty sum in advances, and an appearance on MTV...until it all came crashing down. (aka "STRAIGHT OUTTA SCOTLAND")

In Can You Keep a Secret? Dawn French plays widower Debbie Fenton – granny, lawn bowler, tinpot dictator – who will stop at nothing to make sure her family's protected. Unfortunately, most of the time the person they really need protecting from is her. When her hermit-like husband William (Mark Heap) unexpectedly dies, she makes an outlandish decision that will put the family under more pressure than ever before. Because Debbie isn't actually a widower and William didn't really die – he was just mistakenly declared dead and the two retirees found themselves staring down the barrel of an opportunity too good to pass up. Just a few months hiding out in the loft waiting for the life insurance to pay out and then they can live out their golden years in peace. This all proves a bit much for their easily frazzled son Harry who – despite his emotional shortcomings – has managed to acquire a family of his own and a potentially life changing insurance payout from his father's 'death'. Reunited with a dad he's just buried and the reality that his parents have turned into a pensioner version of Bonnie and Clyde, Harry suddenly has a lot more to juggle. Sandwiched between two generations of toddlers, Harry finds himself navigating a very common stage of life – only this time, it's criminal.

The Cleaning Lady is a one-hour darkly aspirational character drama about a whip-smart Filipina doctor, Reyna Salonga (Yung), who comes to the U.S. for a medical treatment to save her ailing son. But when the system fails and pushes her into hiding, she refuses to be beaten down and marginalized. Instead, she becomes an on-call cleaning lady for the mob. Willing to do anything to save her son, Reyna walks the tightrope of morality, breaking the law for all the right reasons — and eventually forges her own path in the criminal underworld as she starts playing the game by her own rules. In the current third season, the stakes for Thony are higher and more intense than ever, from losing her protector Arman (Canto), to Thony's efforts to bring Fiona (Milan) back to the US after she was deported to the Philippines.

After the tragic loss of his wife and son in a car accident, Frank Morley is consumed by guilt and withdraws from life, immersing himself in his work. Frank works as a Prison Examiner for the Florida Department of Corrections, traveling the state evaluating aging and rundown prisons to determine their operational viability. It's Christmas, 1987. Beaten down by life and after too many miles on the road, Frank pawns off a last-minute investigation to his younger colleague and protégé, Alan. This will be Alan's first solo job as an examiner. After only a week into his new assignment, Alan mysteriously dies and Frank is thrust back into work to pick up the pieces. Frank is resolved to finish the job, but he's also driven to find out the truth about his colleague's untimely demise. Frank finds himself in the dilapidated Osceola Correctional Facility, nestled deep within the heart of the Everglades. Osceola is under the control of Warden LaRue, a man who has devoted his entire existence to the prison. As Frank delves deeper into the case, tensions rise between him and the Warden, who staunchly defends his prison's ability to operate, as well as the not-so-subtle accusations that the prison and its staff are to blame for the young investigator's death. As Frank uncovers the secrets surrounding Alan's death and the prison's mysterious past, he puts himself and everyone else around him in grave danger. Tensions reach a boiling point as a raging storm intensifies outside and the body count rises inside, as inmates continue to die in gruesome and suspicious ways. In his pursuit of the truth, Frank unravels the mystery of the prison's sinister past while finally confronting his own deep-seated grief and guilt from his tragic loss. The story reaches its climax as Frank uncovers the shocking secrets that have plagued Osceola for decades, ultimately leading to a life-or-death showdown. (September 9 - October 4, 2024)

In Cold Water, Lincoln plays John, a repressed man who is shocked to find himself in middle age, secretly raging at his life as a stay-at-home dad. When his failure to intervene in a violent confrontation in a playground brings his identity crisis to a head, John ups and moves his family to the rural idyll of Coldwater, as far away from London as possible. Upon arrival, John is quickly befriended by next-door neighbor Tommy (Bremner), a charming, confident man, devoted husband to the local vicar Rebecca (Myles). He is a man of faith, a pillar of the community and self-appointed leader of the village's all-male book group. John is both impressed and slightly fascinated by Tommy. His wife Fiona (Varma) despises him. As a successful former chef hoping to launch a new venture in Coldwater, Fiona sees the move as an opportunity to leave the past behind them. To not only re-build their lives as a family but re-ignite the long-lost spark in their fading marriage. When her husband's relationship with their enigmatic new neighbor becomes increasingly intense, Fiona's suspicions are aroused. She is unconvinced Tommy is all he seems to be. But John remains blissfully unaware that Tommy is harboring horrifying secrets, and it's only after a series of unsettling incidents start to occur that John begins to wonder who the real Tommy actually is. And when John's long-repressed rage comes to a head with disastrous results, he soon finds himself unexpectedly indebted to his new friend.

From 1972-1978, thirty-three young men were kidnapped, murdered and buried in a crawl space beneath their killer's house. And no one was the wiser. Not for all those years. Why? He was charming and funny. Had a good, All-American job. Was a community leader. He even volunteered to entertain sick kids... while dressed as a clown. 'Devil In Disguise: John Wayne Gacy' peels back the twisted layers of John Wayne Gacy's life while weaving in the heartrending stories of his mostly gay victims; exploring the grief, guilt, and trauma of their families and friends; and exposing the systemic failures, missed opportunities and societal prejudices that fueled his reign of terror.

Eyes in the Trees follows a video journalist and his film crew as they embark on a journey into an isolated forest, only to find their excursion turned into a fight for survival for not just themselves, but the entire human race. Vince Henway (Meyers) and his former protégé-turned-ex Channing Arneau (Greene) lead their crew into the heart of Monkey Ko, off the coast of Thailand. Also known as “The Island of Death” to locals, the island holds rumors of forgotten government medical experiments and scientific genetic manipulations led by Dr. Addis (Hopkins). What the newcomers to the island find there is beyond their wildest expectations, a product of nightmares. Their search for answers quickly transforms into a fight for survival as they try to thwart Dr. Addis' plan to “regress mankind,” killing the majority of Earth's human population.

Set in Mexico City, Petardos y Magnolias tells the story of Vera, a young student at High School #6 whose biggest dream is to become a professional soccer player. Vera is a dedicated girl with a passion for sports, but her path to success will not be easy, as her father, Jaime, has other expectations for her: he wants her to forget her "guajiro dream" and study law at university. Despite her father's objections, Vera persists in her goal, although her life becomes complicated when she meets Alan. Alan, also a student at the same high school, is a technology genius and a video game champion at the 'Frikiplaza'. However, his life has a dark side: he is a member of the OEU (University Student Organization), a group of thugs led by the charismatic and dangerous Bazuka, who is in charge of protecting and defending the school's territories against rival groups. During a semi-final match, Alan falls for Vera, starting a romance that will defy both of their expectations. As their relationship deepens, Vera disobeys her father's orders and becomes more involved with Alan, even involving him in her plan to obtain a sports scholarship that will allow him to study in California. However, Alan's activities with potheads become increasingly dangerous, affecting Vera's plans. During a robbery ordered by Barney and Bazuka, Alan and his best friend Sumo are arrested. Vera, determined to help him, uses the money she had saved for his visa and ticket to California to pay Alan's bail. Alan, overcome with guilt for having ruined Vera's plans, confronts Bazuka when he refuses to help Sumo, who is still in prison. In an act of desperation, Alan steals the money from the robbery and gives it to Vera to continue with her plans. Meanwhile, during the last game of the season, Vera's coach manages to get some scouts from a school in California to attend the game. Impressed by his athletic performance, they grant him the scholarship he so desired. However, the price of success is high. While Vera secures his future in football, Bazuka and Barney manage to get revenge on Alan, brutally attacking him in the streets of Coapa, leaving a bittersweet ending to this story of dreams, love and betrayal. The series portrays the heart-breaking, real-life story of mother, Ann Ming, and her fight to change the Double Jeopardy Law and see her daughter's murderer brought to justice. I Fought The Law tells how Ann and her family dealt with Julie's disappearance in Billingham, Cleveland in November 1989 after working her late shift at a local pizza parlor. Mother to three-year-old, Kevin, Julie was incredibly close to her parents, Ann and Charlie, and was only 22 when she died. Tragically, Ann found Julie's body concealed in the bathroom of her modest terraced house in January 1990, 80 days after it was hidden behind the bath panel by her killer. This was in spite of extensive searches of the property by police forensics teams in the days after her disappearance, who failed to detect her body. Dissatisfied with Cleveland Constabulary and their investigation, Ann challenged senior officers and applied pressure on the police to discover what had happened to her daughter and to prosecute the man who was guilty of her murder. The drama follows Ann and her family, as they campaign tirelessly in Julie's name. In her steadfast and indomitable style and despite her grief, Ann took on the Criminal Justice System, the Crown Prosecution Service, the Law Commission, eminent Defence Barristers in television debates, the Government, the Lord Chancellor, the Attorney General, and two Home Secretaries as she 'fought the law.'

The project details the mysterious death and the surrounding media frenzy in the murder of JonBenét Ramsey, a case that captivated an entire nation and left us with more questions than answers. The series is expected to explore in detail all possible suspects. JonBenét Ramsey was 6 years old when she was reported missing from her Boulder, Colorado home on December 26, 1996. She was found dead several hours later in the basement of the home, along with a long ransom note. An autopsy revealed the cause of death as strangulation and was ruled a homicide. Boulder police initially believe JonBenét's mother, Patsy, had written the ransom note, and that the note and child's body had been staged by her parents in an effort to cover up the murder. Her brother, who was 9 at the time of JonBenét's death, was cleared as a suspect in 1999. In 2013, unsealed court documents revealed that a 1999 grand jury had recommended filing charges against the Ramseys, which included hindering the prosecution, but the DA determined there was insufficient evidence to pursue a successful indictment. The case remains cold to this day.

Before Owen Michaels (Coster-Waldau) disappears, he manages to smuggle a note to his beloved wife of one year: Protect her. Despite her confusion and fear, Hannah Hall (Garner) knows exactly to whom the note refers: Owen's sixteen-year-old daughter, Bailey (Rice). Bailey, who lost her mother tragically as a child. Bailey, who wants absolutely nothing to do with her new stepmother. As Hannah's increasingly desperate calls to Owen go unanswered; as the FBI arrests Owen's boss; as a US Marshal and FBI agents arrive at her Sausalito home unannounced, Hannah quickly realizes her husband isn't who he said he was. And that Bailey just may hold the key to figuring out Owen's true identity—and why he really disappeared. Hannah and Bailey set out to discover the truth, together. But as they start putting together the pieces of Owen's past, they soon realize they are also building a new future. One neither Hannah nor Bailey could have anticipated. Late Bloomer is a comedy series that follows the everyday life of Jassi, your average turban wearing 'live at home' millennial. Like many others his age, he continuously feels like he's behind in life as he witnesses his peers with seemingly thriving careers and picture perfect marriages. The added pressure as an eldest son within an immigrant household is, of course, not really helping either. Working as a driver for a family-run tiffin business (delivering Indian home cooked meals to students), he decides to start a video blog and share the frustrations of his mediocre attempts at adulthood. As a result, he finds himself striking a chord with a steadily growing internet audience who can relate to his journey. Like many first generation children of immigrants, he stems from a deeply rooted Indo-Canadian community and constantly finds himself balancing his cultural Eastern roots while adapting Western ideals of discovering a sense of self. This show tackles themes like dating as a POC, digital-age friendships, self-growth with a million modern distractions, spirituality and dealing with a dysfunctional (yet loving) Punjabi family. All this while navigating the Wild West of online celebrity and becoming an unlikely voice of an unheard generation. Throughout Jassi's journey in the show, he crosses paths with a variety of colorful characters, outlandish dilemmas, and trying situations that challenge the very notions of who he is.

In the early 1990s, at the height of the international war on drugs, the government agency in charge of Britain's borders, Her Majesty's Customs and Excise, realized that they were losing the battle against drug smuggling. Their solution was extraordinary. In a top-secret operation, a small team of British Customs employees were sent undercover. Their task – to infiltrate Britain's most dangerous drug gangs. They were not trained spies. These were ordinary men and women, plucked from ordinary lives around the U.K, put through a basic training regime then told to build new identities in the criminal underworld. These identities were called Legends.

Leah loves the trappings of Christmas, but as a nice Jewish girl in New York, she's always felt like an outsider looking in. So when she gets invited to a picturesque Connecticut Christmas with her adorable new boyfriend's parents, she can't wait. The fact that she'd never quite gotten around to telling him that she's Jewish isn't going to stop her—she's going to finally have the Christmas of her dreams. Graham's head-over-heels for Leah, but he learned early that asking for what he wants just leads to disaster. Now she's about to be exposed to the picture-perfect, passive aggressive nightmare that's a weekend at his parents' house. And he's terrified she'll run screaming for the exits. In the Westwood household, the only thing stiffer than the drinks and the upper lips is the family pride. Will Leah ever get to experience the magic of Christmas instead of the magic of Pinterest? Or will the combination of cutthroat Monopoly, overcooked goose, and veiled comments be enough to tear them apart forever?

However, the plan falls apart when the magician turns out to be inexperienced, unleashing chaos that threatens to ruin the moment. Meanwhile, Genaro receives the shocking news that his key business partner, Santino Lecumberri, has suddenly passed away. This sets off a new set of challenges for Genaro and his team as they realize that their company's financial future depends on securing a deal with Santino's successor. The team must race to identify the right successor from among Santino's three eccentric children—Viridiana, Edgar, and Luca—each with a unique personality and the potential to save or ruin the business. Luca Lecumberri, the firstborn son of a wealthy tycoon, has never been interested in the business of the large corporation that encompasses several hotels and which he must now take over after the sudden death of his father. One day after the wake, Luca decides to leave for Las Vegas, forcing the Mirreyes vs. Godínez team to travel to that city to get him to sign the contract that his father failed to sign. Failure to do so would result in the shoe factory that the characters have defended for two films facing bankruptcy. The film plays out as a fast-paced comedy with the team navigating through a series of unfortunate events, comical misunderstandings, and high-stakes business maneuvers, all set against the dazzling backdrop of Las Vegas. While attending Santino's extravagant funeral, the team must find a way to secure the crucial contract and save their company, all while keeping Mich in the dark about the company's crisis. Set in an era when glass ceilings were made of concrete, Bennett will play Katharine Hilbery — one woman who insisted on reaching for the stars. Based on what has been called Virginia Woolf's funniest novel, Night and Day is described as an "unromantic comedy" about a passionate astronomer who does everything she can to avoid romantic love and marriage. Contemporary in tone, the story of Katharine's bold challenge to the Edwardian patriarchy is set against the backdrop of the suffragette movement and advances in science and technology, at the turn of the 20th century.

An extraordinary biography of Isabella Blow (Riseborough), whose pedigree, wild style, and outrageous antics catapulted her onto the London social scene and made her a fashion icon. In 2007, the news of Isabella Blow's suicide at the age of 48 made headlines around the world—but there is more to the story of Isabella than her tragic end. The key supporter and muse of milliner Philip Treacy and designer Alexander McQueen, Blow was truly more than a muse or patron. She was a spark, an electrical impulse that set imaginations racing, an individual who pushed others to create their best work. Her fascination with clothing began early, as did a willingness to wear things—and say things—that would amuse and shock. She began her fashion career in New York City as assistant to Anna Wintour at Vogue. Over time she became famous for her work, yet it wasn't enough to assuage her devastating feelings of inadequacy. Still, in her darkest moments, even as she began a series of suicide attempts and prolonged hospital stays, Blow retained her wicked sense of humor, making her friends laugh even as they struggled to help.

Morgan Grant (Williams) and her sixteen-year-old daughter, Clara (Grace), would like nothing more than to be nothing alike. Morgan is determined to prevent her daughter from making the same mistakes she did. By getting pregnant and married way too young, Morgan put her own dreams on hold. Clara doesn't want to follow in her mother's footsteps. Her predictable mother doesn't have a spontaneous bone in her body. With warring personalities and conflicting goals, Morgan and Clara find it increasingly difficult to coexist. The only person who can bring peace to the household is Chris—Morgan's husband, Clara's father, and the family anchor. But that peace is shattered when Chris is involved in a tragic and questionable accident. The heartbreaking and long-lasting consequences will reach far beyond just Morgan and Clara. While struggling to rebuild everything that crashed around them, Morgan finds comfort in the last person she expects to, and Clara turns to the one boy she's been forbidden to see. With each passing day, new secrets, resentment, and misunderstandings make mother and daughter fall further apart. So far apart, it might be impossible for them to ever fall back together.

Ripple explores how unexpectedly connected we are as human beings. Set in New York City, Nate, Kris, Walter and Aria have crossed paths hundreds of times, yet they've never met. Because of the seemingly minuscule decisions these core four make in the pilot, we'll witness the ripple effect of how these strangers, all dealing with life's challenges in their own way, are led to one another.

Kim North runs the North Star Santa Academy, a school that supplies perfectly trained Kris Kringles to malls and villages across the nation. But her principal competitor, The St. Nicholas School, has been eating her lunch for the last eleven years, and Kim thinks maybe it's time to sell out. A desperate Kim agrees to hire Dan, a refugee from The St. Nicholas School, as a new-hire Santa trainer, and that's when a miracle happens (no, not the miracle of love, that comes later). After they find a dazed old man with amnesia wandering in the woods, and see eight reindeer flying a sleigh away from the accident site, Kim and Dan realize that Nick might be their ace in the hole -- if anyone can get this year's dismal crop of Kringle-trainees into Macy's-ready Santa's Helpers, it's this guy.

Facing a failed marriage and insurmountable debts, a struggling couple suddenly discovers millions of dollars' worth of gold hidden within their small-town home, inspiring them to hatch a scheme to sell the mysterious gold for money. Mick and Billie Royce live in an idyllic small town, populated by young professionals making a go of it in a once thriving tourist community. But their marriage is strained by money woes, and after Mick begins an affair with Billie's friend Taryn, the couple agrees to a divorce. On the evening of their separation, they discover a cache of gold hidden behind the walls of their small home. Blinded by the prospect of millions of dollars, Mick and Billie pause any discussion of divorce, realizing that secrecy is the best way to ensure the treasure isn't seized by an outside party. The Trades is an exciting, hilarious new half-hour comedy series set in a working-class town where the stress and high risks of working in a refinery are balanced by the comedic, high-wire and outrageous antics of its plant workers. The giant flare stack of the Conch Industries refinery burns over Imperial Valley, Nova Scotia, like a beacon of economy, ingenuity, and incendiary personalities. Here is where we find Todd Stool, proud pipe-fitter for Union 519, who for over 20 years has worked his way up from apprentice to (almost) site manager – a job that he fully expects to be his when current site manager, Bennett, falls into a drug induced coma in the pilot. But unfortunately for Todd, Conch corporate office sends Chelsea – an aspiring hotshot executive – to Imperial Valley to clean shop, and unbeknownst to everyone (including Chelsea), shut down its operations. The cast of hilarious tradespeople and refinery workers create a community of pranksters, laborers, friends and enemies. Enter Todd's sister, Audrey, who finds the motivation to leave her tedious life in retail for a career path in the trades. She applies to Imperial Valley as an apprentice carpenter, which stresses Todd out and disrupts the flow of his crew. It only gets more complicated when Audrey strikes up a special friendship with Chelsea, and tensions rise between the tradespeople and management. But what started out as rivalry between Todd and Chelsea slowly becomes common ground as Todd realizes he might be the only pipe-fitter in town who can stop an extinction event which threatens every citizen in Imperial Valley. Under Salt Marsh is a gripping crime thriller set in the fictional Welsh town of Morfa Halen, a tight-knit community precariously nestled between towering mountains and a fast-encroaching sea that threatens its very existence. As a once-in-a-generation storm begins to gather far out at sea, former detective turned teacher Jackie Ellis (Reilly) discovers the body of her 8-year-old pupil, Cefin, seemingly drowned. The discovery sends shockwaves through the community, reviving the ghost of an unsolved cold case that rocked the town three years prior – the disappearance of Jackie's niece, Nessa, which cost her career. Cefin's death summons Jackie's former partner, Detective Eric Bull, back to Morfa Halen to lead the investigation into a community he failed once before. Convinced the cases are linked, Jackie and Bull must reconcile and race to uncover long-buried secrets inside Morfa, before the storm breaks and all the evidence is gone for good. An intimate and cinematic story, Under Salt Marsh takes audiences into the heart of a community bound by nature and fractured by an unthinkable crime. (October 2024 - February 2025)

Inspired by true events, The Waterfront dives into the flawed Buckley family as their attempts to retain control of their crumbling North Carolina fishing empire drive them to increasingly dangerous means to keep themselves afloat. McCallany will play the patriarch Harlan Buckley who has built up the Buckley fishery business with his dad, even veering into some illegal territory in the 1980s. Since his two heart attacks, Harlan hasn't changed his lifestyle, but his absence from the family business left it in the hands of his wife, Vicki, and his son, Cane — whose desperate, foolish decisions have left Harlan with no choice but to take the reins once again. Is Harlan a hero? A villain? It's a hard call. He's just a man who loves his whiskey.

Jo, mommy blogger and single mother of a precocious 5 year-old, is always one more like/follower away from happiness. She gets the break she's "always deserved" when Vanity Magazine assigns her to publicly blog about her personal growth from a physically impossible nine-week yoga teacher training retreat. Out of shape, fearlessly ambitious, and in no need of "growth," she lies to her baby-daddy, her boss, and dysfunctional family to turn the assignment into a feature cover article exposing the dark side of the retreat's charismatic leader. Deep undercover, she surrenders to the narcissistic guru's unconventional, humiliating, and surprisingly effective directives until she becomes so competent in yoga that she sets a different shiny new goal - to be a world famous competitive yogi! While on stage at the live-broadcasted National Yoga Championships, Jo seizes the irony of the moment to realize that it's fearless authenticity that will actually bring her and her family happiness.
