Birth of a Family tells the story of four siblings who meet for the first time in their 50s. Separated from each other and their mother while they were babies, these Sixties Scoop survivors spend a long weekend in the Rockies, slowly building a family bond forged with tears, laughter, anger, love, and confusion. Connie, Gwen, Marianne and Anthony arrive at Calgary airport on a spring day, and by the time they catch their return flights their lives have been irrevocably transformed. Connie is single, a consummate planner who spearheaded the gathering and aches to see everyone and everything gel. Gwen is a straight-shooting single mother whose steely manner masks a deep-seated vulnerability. Raised in Belgium, Marianne has no real sense of what it means to be Indigenous, a hole she doesn't know how to fill. Anthony is soft-spoken, long-haired and preparing to be a grandfather for the first time as he struggles to find his place as the big brother to three strong women. Two impactful outings shape the siblings' time together. During a Saturday morning excursion to the SkyWalk Connie's crippling fear of heights is revealed, setting the stage for her sisters and brother to bond as she teeters on the verge of falling apart. The next day the siblings gather at the Indigenous arts market where Marianne had bought a pair of earrings on her own. When Alma, the elder who sold them, learned that Marianne was a Sixties Scoop survivor she invited her to return with her family to meet her husband. Their time with Simon is life changing. He names their pain and encourages them to mend their broken lives. It is granite-strong Gwen who is soon shattered by self-doubt and self-hatred. The wordless embrace Gwen, Connie, Marianne and Anthony then share speaks volumes.

The film will chart the true story of two Scottish lads from Dundee who conned the international music industry by adopting American accents and pretending to be established Californian rap duo, Silibil N' Brains. In the late 90's, Gavin Bain (McLean Ross) and Billy Boyd (Bottomley) had their musical ambitions consistently ridiculed for having the 'wrong' accents, so they went for broke and reinvented themselves as Californian rappers. McAvoy's movie will show how the duo re-recorded their own tracks with fake accents and turned up in London claiming to be an established duo on the Cali scene as well as childhood friends with Eminem. They quickly bagged themselves a record deal, a hefty sum in advances, and an appearance on MTV...until it all came crashing down. (aka "STRAIGHT OUTTA SCOTLAND")

The student body at Greendale Community College is made up of high-school losers, newly divorced housewives and old people who want to keep their minds active. Within these not-so-hallowed halls is on particular band of misfits, at the center of which is a fast-talking lawyer whose degree has been revoked, who form a study group and end up learning a lot more about themselves than they do about their course work.

The spinoff is set in the world of The Neighborhood universe. It centers on its titular character Francois "Frank" Crutchfield (Morgan) – or "Crutch" to those who know him well – a hardworking owner of a flooring store in Harlem, who still grieves his late wife who passed five years ago, but manages to distract himself by proudly celebrating his children, Jake and Jamilah. After telling Jamilah to bring the grandkids over for more visits, and congratulating Jake for his new job at a top law firm, Crutch is shocked when his kids announce they might need to move back home. Crutch's new normal has suddenly become a lot more chaotic, but having family close might be just what he needs. (September 20 - November 22, 2024)

From 1972-1978, thirty-three young men were kidnapped, murdered and buried in a crawl space beneath their killer's house. And no one was the wiser. Not for all those years. Why? He was charming and funny. Had a good, All-American job. Was a community leader. He even volunteered to entertain sick kids... while dressed as a clown. 'Devil In Disguise: John Wayne Gacy' peels back the twisted layers of John Wayne Gacy's life while weaving in the heartrending stories of his mostly gay victims; exploring the grief, guilt, and trauma of their families and friends; and exposing the systemic failures, missed opportunities and societal prejudices that fueled his reign of terror.

Set in the rich farmland of the Salinas Valley, California, this often brutal novel follows the intertwined destinies of two families - the Trasks and the Hamiltons - whose generations hopelessly re-enact the fall of Adam and Eve and the poisonous rivalry of Cain and Abel. Spanning the period between the American Civil War and the end of World War I, the story highlights the conflicts of two generations of brothers; the first being the kind, gentle Adam Trask and his wild brother Charles. Adam eventually marries Cathy Ames, an evil, manipulative, and beautiful prostitute; she betrays him, joining Charles on the very night of their wedding. Later, after giving birth to twin boys, she shoots Adam and leaves him to return to her former profession. In the shadow of this heritage Adam raises their sons, the fair-haired, winning, yet intractable Aron, and the dark, clever Caleb. This second generation of brothers vie for their father's approval. In bitterness Caleb reveals the truth about their mother to Aron, who then joins the army and is killed in France.

Every Thursday. 9pm. Tom and Evie (Wood) watch a film together in her garage. Evie lovingly decorates the space to match the film of the week - from a yellow brick road for The Wizard of Oz to a space craft for Alien. It's magical. They're there for the love of the movies. Or at least, that's what they tell themselves. In reality, Tom is madly in love with Evie. What he doesn't know is that Evie is in love with him too. But when Tom accepts a job at the other end of the country, their happily ever after comes under threat. He's leaving in six weeks. That means Evie has six film clubs left to tell Tom how she feels, or risk losing him forever. Evie is going to have to navigate all of this amongst the chaos of her family home - her eccentric and unconventional mother, Suz, and her younger sister Izzy. A trio of women full of love, and dysfunction, in equal measure.

A historic comedy exploring the little known story of Mary Tudor and the friendship with her female court jester. Set in the 16th century in the aftermath of Henry VIII's death, "Fool" follows England's first queen Mary I (Gillan) as she takes the throne in a divided country on the brink of chaos. While the ambitious Cardinal Pole (Broadbent) plots to secure control, he overlooks a humble court jester, Jane Foole (Ferran). The pious and apparently humorless queen finds Jane's brilliant slapstick routines uproariously funny, and they strike up a genuine friendship, the comedy lightening Mary's mood in the darkest of times, and helping fend off Pole's murderous manipulation. But can Jane's comedy save a nation from civil war?

The single-camrea comedy Going Dutch follows arrogant loudmouth U.S. Army Colonel Patrick Quinn (Leary), who after an epically unfiltered rant, is reassigned to the Netherlands, where he is punished with a command position at the least important army base in the world. After serving with distinction in every warzone of the last three decades, he now finds himself in charge of a base with no guns, no weapons, and no tactical purpose. Instead, it has a Michelin-star level commissary, top notch bowling alley, and the best (and only) fromagerie in the U.S. Army. Surrounded by a diverse group of underdogs, the colonel tries to reinstall military discipline and professionalism with the help of the base's previous interim leader, who happens to be his estranged daughter. About the undisputed queen of sex, drugs, and rock 'n' roll, Janis Joplin who was the "skyrocket chick" of the sixties, the woman who broke into the boys' club of rock and out of the stifling good-girl femininity of postwar America. With her incredible wall-of-sound vocals, Joplin was the voice of a generation, and when she OD'd on heroin at the age of 27 in October 1970, the dreams of her generation crashed and burned with her. The story reveals how this sweet-voiced girl from Texas re-created herself, first as a gravelly-voiced bluesy folksinger, and then as rock 'n' roll's first female superstar. Examining the roots of Joplin's musicianship and her efforts, both onstage and off, to live on what she called "the outer limits of probability," drinking and carousing like one of the guys, declaring herself the first "white-black" person, and pursuing sex with men and women alike.

The project details the mysterious death and the surrounding media frenzy in the murder of JonBenét Ramsey, a case that captivated an entire nation and left us with more questions than answers. The series is expected to explore in detail all possible suspects. JonBenét Ramsey was 6 years old when she was reported missing from her Boulder, Colorado home on December 26, 1996. She was found dead several hours later in the basement of the home, along with a long ransom note. An autopsy revealed the cause of death as strangulation and was ruled a homicide. Boulder police initially believe JonBenét's mother, Patsy, had written the ransom note, and that the note and child's body had been staged by her parents in an effort to cover up the murder. Her brother, who was 9 at the time of JonBenét's death, was cleared as a suspect in 1999. In 2013, unsealed court documents revealed that a 1999 grand jury had recommended filing charges against the Ramseys, which included hindering the prosecution, but the DA determined there was insufficient evidence to pursue a successful indictment. The case remains cold to this day.

THE WALSH COMPANY liz@thewalshco.com

In 2007, a short blogpost on Valleywag, the Silicon Valley-vertical of Gawker Media, outed PayPal founder and billionaire investor Peter Thiel (Damon) as gay. Thiel's sexuality had been known to close friends and family, but he didn't consider himself a public figure, and believed the information was private. This post would be the casus belli for a meticulously plotted conspiracy that would end nearly a decade later with a \$140 million dollar judgment against Gawker, its bankruptcy and with Nick Denton, Gawker's CEO and founder, out of a job. Only later would the world learn that Gawker's demise was not incidental--it had been masterminded by Thiel. For years, Thiel had searched endlessly for a solution to what he'd come to call the "Gawker Problem." When an unmarked envelope delivered an illegally recorded sex tape of Hulk Hogan (Affleck) with his best friend's wife, Gawker had seen the chance for millions of pageviews and to say the things that others were afraid to say. Thiel saw their publication of the tape as the opportunity he was looking for. He would come to pit Hogan against Gawker in a multi-year proxy war through the Florida legal system, while Gawker remained confidently convinced, they would prevail as they had over so many other lawsuit--until it was too late. The verdict would stun the world and so would Peter's ultimate unmasking as the man who had set it all in motion. Why had he done this? How had no one discovered it? What would this mean--for the First Amendment? For privacy? For culture?

Late Bloomer is a comedy series that follows the everyday life of Jassi, your average turban wearing 'live at home' millennial. Like many others his age, he continuously feels like he's behind in life as he witnesses his peers with seemingly thriving careers and picture perfect marriages. The added pressure as an eldest son within an immigrant household is, of course, not really helping either. Working as a driver for a family-run tiffin business (delivering Indian home cooked meals to students), he decides to start a video blog and share the frustrations of his mediocre attempts at adulthood. As a result, he finds himself striking a chord with a steadily growing internet audience who can relate to his journey. Like many first generation children of immigrants, he stems from a deeply rooted Indo-Canadian community and constantly finds himself balancing his cultural Eastern roots while adapting Western ideals of discovering a sense of self. This show tackles themes like dating as a POC, digital-age friendships, self-growth with a million modern distractions, spirituality and dealing with a dysfunctional (yet loving) Punjabi family. All this while navigating the Wild West of online celebrity and becoming an unlikely voice of an unheard generation. Throughout Jassi's journey in the show, he crosses paths with a variety of colorful characters, outlandish dilemmas, and trying situations that challenge the very notions of who he is. Angry after her family moves to Brazil, teenage Poe Rayburn (Boulet) is frustrated. But when her parents are killed in an apartment bombing and she's the only witness, she must go on the run from terrorists using the skills her ex-Special Forces Father instilled in her to survive. Creasy is now plagued with intense PTSD. Determined to overcome his personal demons, he sets out on a path to redemption. Cannavale will play Paul Rayburn, an ex-Special Forces soldier who possesses a unique ability to read people. He is charming, nurturing, and protective of those he cares for. Despite his warm, fatherly nature, his years of service in the field have given him an acute awareness of violence and human behavior. The series follows three best friends — gay gentlemen of a certain age — who, after an unexpected death, decide to spend their golden years living together in Palm Springs where the wealthiest one lives with his mother and a naked Gen Z housekeeper. As a chosen family, they prove that no matter how hard things get, there's always someone around to remind you it would be better if you got your neck done. Lane will play Bunny Schneiderman while Bomer will be Jerry Frank. Lavin will take over as Bunny's mother, Sybil Schneiderman. A successful businessman with one foot in retirement, Bunny is forever in search of love, but he first has to be convinced he's worthy of it. Like her son, Sybil's strengths are her weaknesses: wise, caring, and iconoclastic — which sometimes means she's critical, smothering and amoral. Jerry left the Mormon Church and his marriage in his early 20s after his wife informed him and the rest of the congregation that he was a homosexual. Now a latter-day saint in the literal sense of the term, Jerry is pure of heart. He is also hard of body and soft of head. (October 29 - January 29, 2025)

Following the untimely death of the sheriff of the town of Normal, Ulysses (Odenkirk) fills the void as a substitute lawman until an official replacement is named. It's a sleepy town (population: 4,890) with simple problems, yet Ulysses can't shake a nagging suspicion that life is just a little too perfect for the colorful townsfolk. When an out-of-town couple robs the lone bank, they unwittingly blow the doors off the secret to Normal's too-good-to-be true success. Everyone—from the bartender to the priest—is on the payroll and ready to kill to keep the town's secrets under wraps. And now Ulysses, who's up-till-now focused only on running away from the demons of his past, must take a stand and fight. With no choice but to form an alliance with the robbers and a disaffected loaner, it's up to Ulysses to take on the town's citizens-turned-assassins in a bone-crunching, bullet-dodging, relentless fight for survival. But the residents of Normal will stop at nothing to protect their way of life. (October 15 - December 13, 2024)

Tani Adewumi didn't know what Boko Haram was or why they had threatened his family. All he knew was that when his parents told the family was going to America, Tani thought it was the start of a great adventure rather than an escape. In truth, his family's journey to the United States was nothing short of miraculous—and the miracles were just beginning. Tani's father, Kayode, became a dishwasher and Uber driver while Tani's mother, Oluwatoyin, cleaned buildings, while the family lived in a homeless shelter. Eight-year-old Tani jumped into his new life with courage and perseverance—and an unusual mind for chess. After joining the chess club in his public school, Tani practiced his game for hours in the evenings at the shelter. And less than a year after he learned to play, Tani won the New York State chess championship.

Aidan Thomas is a hard-working family man and a somewhat beloved figure in the small upstate New York town where he lives. He's the kind of man who always lends a hand and has a good word for everyone. But Aidan has a dark secret he's been keeping from everyone in town and those closest to him. He's a kidnapper and serial killer. Aidan has murdered eight women and there's a ninth he has earmarked for death: Rachel, imprisoned in a backyard shed, fearing for her life. When Aidan's wife dies, he and his thirteen-year-old daughter Cecilia are forced to move. Aidan has no choice but to bring Rachel along, introducing her to Cecilia as a "family friend" who needs a place to stay. Aidan is betting on Rachel, after five years of captivity, being too brainwashed and fearful to attempt to escape. But Rachel is a fighter and survivor, and recognizes Cecilia might just be the lifeline she has waited for all these years. As Rachel tests the boundaries of her new living situation, she begins to form a tenuous connection with Cecilia. And when Emily, a local restaurant owner, develops a crush on the handsome widower, she finds herself drawn into Rachel and Cecilia's orbit, coming dangerously close to discovering Aidan's secret.

In the claustrophobic confines of a rural estate, a family struggles with their tangled web of hereditary diseases. Among them is Alessandro, a young man with epilepsy and paranoid tendencies. Feeling burdened by the numerous afflictions that plague his family, he decides to relieve his only healthy brother, Augusto, from the weight of their shared responsibilities. However, Alessandro's obsessive project takes a dark turn when a series of dreadful accidents and murders is set into motion. The chilling sequence begins with the intentional act of pushing their blind, religious mother into a ravine. This sinister act is followed by the elimination of Leone, the intellectually disabled brother. Throughout this macabre scheme, Alessandro grapples with his own desires, including an unsettling inclination towards incestuous impulses with his sister, Giulia. Meanwhile, Giulia clumsily attempts to thwart Augusto's plans of leaving the family by sabotaging his relationship with Lucia, whom he loves deeply. As the family dynamics intensify, the question arises: Will Alessandro be able to bring his obsessive project to completion? Will he succeed in freeing himself and Augusto from their mother's demands and familial obligations, allowing them to pursue a new life together in the city? Or will unforeseen obstacles stand in the way, challenging Alessandro's twisted ambitions and disturbing plans?

Kim North runs the North Star Santa Academy, a school that supplies perfectly trained Kris Kringles to malls and villages across the nation. But her principal competitor, The St. Nicholas School, has been eating her lunch for the last eleven years, and Kim thinks maybe it's time to sell out. A desperate Kim agrees to hire Dan, a refugee from The St. Nicholas School, as a new-hire Santa trainer, and that's when a miracle happens (no, not the miracle of love, that comes later). After they find a dazed old man with amnesia wandering in the woods, and see eight reindeer flying a sleigh away from the accident site, Kim and Dan realize that Nick might be their ace in the hole -- if anyone can get this year's dismal crop of Kringle-trainees into Macy's-ready Santa's Helpers, it's this guy.

The story follows Lorna, a self-made and successful businesswoman from South London who has worked hard to be where she is - and best friend Juliet, an impressive stay at home mother (recently turned author) born into the privileged gated community they both call home. Daughters Grace and Allegra are BFFs and life is to die for. A safe haven for the super-rich and their little darlings, Primrose Estate is a place where bad things never happen... Until, that is, Grace and Allegra are implicated in a shocking scandal at their exclusive private school and Juliet and Lorna are forced to take sides, pushing their friendship to the extreme. As toxic secrets and lies ripple through the heart of the idyllic town - and a teenager goes missing - cracks within the community threaten to reveal the elitist ugliness and betrayal beneath. Because it turns out that people are not who they say they are... especially the one per cent. Set in a private enclave in the Home Counties, this is a multi-generational show following the teenagers, their mothers and the wider community. A provocative and deliciously honest look at mother/daughter relationships in a haze of social media, hidden apps and peer pressure that asks: how far will we go to protect our children? And just how much do teenage girls know about the women raising them? If the apple doesn't fall far from the tree, then who is leading these girls astray? "Like mother like daughter" rings loudly in a complex world, and danger is never far from the surface - even in a perfect town. (aka "THE PERFECT TOWN" &amp; "VIRGINIA")

Chronicling the life of Joseph Stalin as a bank-robbing gangster in pre-revolutionary Russia. The story off how a diminutive 20-something Soso (a nickname given to him by his mother) led a group of revolutionaries in a massive bank heist to rob the Imperial Bank in 1907 Tbilisi and in the process became the man known as Stalin. This was the Wild Wild East, made up of Cossacks, Bolshevik gunslingers, the Tsar's secret police and proto fascistic brigades.
