Wannabe filmmakers who never made it decide to reboot "Anaconda" and travel to the Amazon, where they get caught up in the fight for a flower that might cure cancer. When Doug McCallister's (Rudd) wife Malie throws him a surprise party, and his old high school friends- Griff (Black), Claire and Kenny - get together, they watch the bad horror movie they made in high school and get it into their heads that they can make a reboot of an old favorite, Anaconda, to which Griff claims to now own the rights. They raise a little capital and take off for the jungle, where they fall in with Ana, who, it turns out, is masquerading as a riverboat captain and is really on the run from big Pharma goon Myron because she's discovered a flower that supposedly cures cancer. Of course, a real, giant anaconda's stalking them all, too. Doug and Griff have to hash out their differences to thwart Myron and then kill the anaconda, making a memorable movie in the process.

Follows the experiences of 30 Greenpeace activists thrown into Russia's prison system after protesting against drilling in the Arctic. With rising temperatures, a military arms race, and a multi-national rush to exploit resources at any cost, the Arctic is now the stage on which our future will be decided. As the ice melts, Vladimir Putin orders Russia's oil rigs to move further north. But one early September morning in 2013, thirty men and women from eighteen countries—the crew of Greenpeace's Arctic Sunrise—decided to draw a line in the ice and protest Arctic drilling. Thrown together by a common cause, they are determined to stop Putin and the oligarchs. But their protest is met with brutal force as Russian commandos seize the Arctic Sunrise. Held under armed guard by masked men, they are charged with piracy and face fifteen years in Russia's nightmarish prison system. (aka "DON'T TRUST, DON'T FEAR, DON'T BEG")

The Betancourt family has just moved from the projects of East LA to a tenement building in Spanish Harlem, NY, hoping for a fresh start and better life. Immediately, they feel like outcasts and are not welcomed by their eclectic neighbors as they had hoped. A severe snowstorm traps everybody inside the building on Christmas Eve, so it appears the Betancourts will be spending their first holiday in their new home in isolation. But when the building is overtaken by a horde of blood-thirsty, feral killer cats, the family and their new neighbors must overcome their differences and work together if they are going to survive until Christmas morning.

The fascinating story behind the making of Bruce Springsteen's most surprising album, Nebraska, revealing its pivotal role in Springsteen's career. Without Nebraska, Bruce Springsteen might not be who he is today. The natural follow-up to Springsteen's hugely successful album The River should have been the hit-packed Born in the U.S.A. But instead, in 1982, he came out with an album consisting of a series of dark songs he had recorded by himself, for himself. But more than forty years later, Nebraska is arguably Springsteen's most important record—the lasting clue to understanding not just his career as an artist and the vision behind it, but also the man himself. Nebraska is rough and unfinished, recorded on cassette tape with a simple four-track recorder by Springsteen, alone in his bedroom, just as the digital future was announcing itself. And yet Springsteen now considers it his best album. Nebraska expressed a turmoil that was reflective of the mood of the country, but it was also a symptom of trouble in the artist's life, the beginnings of a mental breakdown that Springsteen would only talk about openly decades after the album's release. When an unwanted Valentine's Day present is dumped at the shelter, volunteer Lily decides to foster the poor dog herself. A little attention is all he needs to blossom into a loving pet, ready for his forever home. Plus, helping a poor, rejected animal will distract her from her own problems. Win, win. Right? Wrong. Valentine needs more than a makeover if he's going to be adopted. He destroys her home, hates to be groomed and when he behaves better for a perfect stranger than he does her, Lily swallows her pride and begs the good looking but quiet stranger for help. After losing his canine partner in a horrific moment that upended his future, sexy and stoic Shane turns to books, walks in the park and remodeling his grandmother's home. No more intense K9 officer career, no more dogs, no more risks. But it's hard to ignore the misunderstood mutt at the park and his well-intentioned, but clueless, handler. Shane reluctantly agrees to give her a few tips and tricks, but that's all. He won't care. He won't get invested. And once Valentine finds his new home, his life can go back to normal.

A spy thriller, set in the dark days of the Malayan Emergency of 1951. Based on true events, the story is told from three perspectives: a female Malayan Chinese guerilla fighter for the Communist Terrorists (CTs) trying to overthrow the British; a conflicted young Malay policeman who's charged with infiltrating the Communist ranks and the British army officer he reports to, a man with his own demons but who's seeking a dramatically different route to end the conflict. Evans will play Brigadier 'Mad' Mike Calvert, the closeted homosexual and highly controversial British commander in charge of the elite Malayan Scouts, leading the military response against the CTs. He ventures deep into the jungle, spending time understanding the rural communities that protect the enemy. But with the Communist cell closing in, he finds himself in a dramatic race against time to protect his men and win over ordinary citizens before the British deploy a new secret weapon – the herbicide which will later be known as Agent Orange.

A feminist dramedy centers around a group of friends who – fueled by rage and rosé – decide to take down a global misogynist icon. In “Hysterical,” Harris is set to play therapist Leonora, who finds herself going down a rabbit hole of toxic masculinity after her daughter is assaulted. Realizing the boy responsible is a fan of “alpha” influencer Tommy T, who's grown a global following spewing toxic advice to young men, Leonora unloads on her friends during one of their weekly “rage release” rant sessions. Intoxicated by anger and alcohol, the group soon decide to take matters into their own hands as they plot to take down Tommy T themselves. From clumsy surveillance attempts to pranks that fizzle out, these well-meaning friends bumble their way through increasingly outrageous schemes. Along the way, they discover just how much chaos a tight-knit group of friends can create when harnessing their rage —and just how far they're willing to go for one another. Between school runs, awkward encounters with neighbors, juggling everyday life and busy careers, the women learn that maybe they're not completely unequipped for revenge after all—they just have to do it their way.

Neuromancer, takes place in the near future in a cyberpunk setting. Cyberpunk is a genre that focuses on future societies where technology has advanced, but crime and corruption have as well. Common features include globe-spanning mega-corporations, cybernetically enhanced mercenaries, and the importance of technology as a tool for crime. The story follows the experiences of Case (Turner), an out-of-work hacker who is contacted by a mysterious new employer called Armitage. Along with Molly, a mercenary cyborg, and a thief/illusionist named Peter Riviera, Case participates in a series of data thefts for their employer. Their first job has them stealing an electronic copy of the mind of McCoy Pauley, a brilliant hacker who taught Case a great deal of what he knows. They steal this electronic mind to help them in performing their next job. After that, the group must head to Freeside, an enormous space habitat in orbit around Earth. Freeside serves as a luxury resort and casino for the wealthy, and it is also the location of Villa Straylight, the home of the incredibly wealthy and powerful Tessier-Ashpool family. The group's second job is to break into the Villa Straylight and hack into Wintermute, a powerful artificial intelligence created by the Tessier-Ashpool family. In the end, it turns out that Wintermute itself was behind the whole scheme. Government regulations put careful restrictions on artificial intelligences to prevent them from getting out of hand, and Wintermute was using Armitage and his team to break those restrictions. This allows Wintermute to merge with another A.I. called Neuromancer, becoming a new, more powerful electronic being. (w/t "ICEBREAKER")

Sam Dryden, retired special forces, lives a quiet life in a small town on the coast of Southern California. While out on a run in the middle of the night, a young girl runs into him on the seaside boardwalk. Barefoot and terrified, she's running from a group of heavily armed men with one clear goal—to kill the fleeing child. After Dryden helps her evade her pursuers, he learns that the eleven year old, for as long as she can remember, has been kept in a secret prison by forces within the government. But she doesn't know much beyond her own name, Rachel. She only remembers the past two months of her life—and that she has a skill that makes her very dangerous to these men and the hidden men in charge. Dryden, who lost his wife and young daughter in an accident five years ago, agrees to help her try to unravel her own past and make sense of it, to protect her from the people who are moving heaven and earth to find them both. Although Dryden is only one man, he's a man with the extraordinary skills and experience—as a Ranger, a Delta, and five years doing off-the-book black ops with an elite team. But, as he slowly begins to discover, the highly trained paramilitary forces on their heels is the only part of the danger they must face. Will Rachel's own unremembered past be the most deadly of them all?

A drama about the interracial love affair between Sammy Davis Jr. (Jonsson) and actress Kim Novak (Sweeney), who at the time was the top box office draw in Hollywood. The drama is Romeo and Juliet set in the backdrop of the Hollywood studio system, when star images were carefully controlled. Davis was the color barrier-breaking star who was making \$25,000 a week at the Sands Hotel in Las Vegas and became one of the first black stars to appear in a dramatic role on television on General Electric Theater. Novak was a discovery of notorious Columbia Pictures head Harry Cohn, who relied on her to replace previous discovery Rita Hayworth, whose string of marriages dimmed her stardom. Novak was the next rising star of Vertigo, and when she and Davis fell in love after being matched up by Tony Curtis, the pressures brought to bear on both were unimaginable as word of their romance hit the Hollywood gossips.

A therapist attempts to put his life together after the death of his wife. Shrinking follows a grieving therapist Jimmy (Segel) who starts to break the rules and tell his clients exactly what he thinks. Ignoring his training and ethics, he finds himself making huge, tumultuous changes to people's lives...including his own. Ford will play Dr. Phil Rhodes, a down to earth and sharp "blue collar shrink" and pioneer in cognitive behavioral therapy. He shares a practice with two of his protégés, Jimmy and Gaby (Williams), and has recently been diagnosed with Parkinson's, which forces him out of his comfort zone as he deals with intrusive friends, his estranged family, and his legacy. Ellie Mack was the perfect daughter. She was fifteen, the youngest of three. She was beloved by her parents, friends, and teachers. She and her boyfriend made a teenaged golden couple. She was days away from an idyllic post-exams summer vacation, with her whole life ahead of her. And then she was gone. Now, her mother Laurel Mack is trying to put her life back together. It's been ten years since her daughter disappeared, seven years since her marriage ended, and only months since the last clue in Ellie's case was unearthed. So when she meets an unexpectedly charming man in a café, no one is more surprised than Laurel at how quickly their flirtation develops into something deeper. Before she knows it, she's meeting Floyd's daughters—and his youngest, Poppy, takes Laurel's breath away. Because looking at Poppy is like looking at Ellie. And now, the unanswered questions she's tried so hard to put to rest begin to haunt Laurel anew. Where did Ellie go? Did she really run away from home, as the police have long suspected, or was there a more sinister reason for her disappearance? Who is Floyd, really? And why does his daughter remind Laurel so viscerally of her own missing girl?

It centers around Melinda Monroe, who answers an ad to work as a nurse practitioner in the remote California town of Virgin River thinking it will be the perfect place to start fresh and leave her painful memories behind. But she soon discovers that small-town living isn't quite as simple as she expected and that she must learn to heal herself before she can truly make Virgin River her home.

Season Five of Virgin River features surprising new relationships, a shocking break-up, a difficult court trial, a heartbreaking goodbye, and a wildfire that threatens the town, bringing some people of Virgin River together while tearing others apart. Issues of motherhood push Mel to make a big decision about her future at the clinic while her pregnancy unexpectedly sparks an emotional connection to her past. To further prove himself to Mel, Jack squares off with some long-overdue confrontations—with his own demons, and of course, Charmaine. And as Doc and Hope's respective impairments throw their identities into question, the doctor and the mayor must find solace in their community, in their young new family, and in each other.

The Wonder Yard follows Dinah (Weaver), a 73-year-old widow who, after 50 years of marriage, channels her grief into building an eclectic wonderland in her front yard. Faced with financial hardship and the skepticism of her adult children, who believe she may be losing touch with reality, Dinah embarks on a journey of self-discovery, proving that it’s never too late to pursue dreams. When her disapproving daughter dismantles the yard, Dinah must rebuild both her creation and her life, with the unexpected support of Yusuf (Shalhoub), a Middle-Eastern neighbor confronting his own mortality. As their friendship deepens, Dinah’s transformation inspires her family to face their fears and embrace their authentic selves. With its heartwarming exploration of aging, loss, and connection, The Wonder Yard is an uplifting story about finding beauty, joy, and second chances even in life’s most challenging moments.
