In The Dark Forest, Earth is reeling from the revelation of a coming alien invasion-in just four centuries' time. The aliens' human collaborators may have been defeated, but the presence of the sophons, the subatomic particles that allow Trisolaris instant access to all human information, means that Earth's defense plans are totally exposed to the enemy. Only the human mind remains a secret. This is the motivation for the Wallfacer Project, a daring plan that grants four men enormous resources to design secret strategies, hidden through deceit and misdirection from Earth and Trisolaris alike. Three of the Wallfacers are influential statesmen and scientists, but the fourth is a total unknown. Luo Ji, an unambitious Chinese astronomer and sociologist, is baffled by his new status. All he knows is that he's the one Wallfacer that Trisolaris wants dead.

Wannabe filmmakers who never made it decide to reboot "Anaconda" and travel to the Amazon, where they get caught up in the fight for a flower that might cure cancer. When Doug McCallister's (Rudd) wife Malie throws him a surprise party, and his old high school friends- Griff (Black), Claire and Kenny - get together, they watch the bad horror movie they made in high school and get it into their heads that they can make a reboot of an old favorite, Anaconda, to which Griff claims to now own the rights. They raise a little capital and take off for the jungle, where they fall in with Ana, who, it turns out, is masquerading as a riverboat captain and is really on the run from big Pharma goon Myron because she's discovered a flower that supposedly cures cancer. Of course, a real, giant anaconda's stalking them all, too. Doug and Griff have to hash out their differences to thwart Myron and then kill the anaconda, making a memorable movie in the process. Two years of stalking the streets as the Batman, striking fear into the hearts of criminals, has led Bruce Wayne deep into the shadows of Gotham City. With only a few trusted allies — Alfred Pennyworth, Lt. James Gordon — amongst the city's corrupt network of officials and high-profile figures, the lone vigilante has established himself as the sole embodiment of vengeance amongst his fellow citizens. When a killer targets Gotham's elite with a series of sadistic machinations, a trail of cryptic clues sends the World's Greatest Detective on an investigation into the underworld, where he encounters such characters as Selina Kyle/aka Catwoman, Oswald Cobblepot/aka the Penguin, Carmine Falcone, and Edward Nashton/aka the Riddler. As the evidence begins to lead closer to home and the scale of the perpetrator's plans becomes clear, Batman must forge new relationships, unmask the culprit, and bring justice to the abuse of power and corruption that has long plagued Gotham City.

Vinnie, a Lancashire lad with bipolar disorder, and Dylan, his razor-smart best mate, are inseparable and utterly co-dependent. They've hardly spent a day apart since birth. But Dylan's girlfriend Erin might just shake things up for good with her plans to leave town and start a new life for herself and her kid, Tyler. Dylan is faced with the impossible decision between a fresh start with the love of his life or staying behind with his inseparable gang of mates that he can't live without. This gang includes Cardi, champion kebab eater and total liability; Ash, the son of a family of fighting travelers whose fists can get them out of most kinds of trouble; Tommo, the most sexually liberated man in Britain who doesn't care what people think; and JJ, a sharp entrepreneur who runs a garage (with a lucrative sideline in stolen cars). These lads have dealt, scammed, bribed and conned their way through adolescence, but now, on the brink of adulthood, their dealing and stealing is catching up with them and a whole load of trouble is heading their way. Like a carefully stacked tower of cards, what happens if one of them is knocked down or, worse, removed from the pack entirely? Veering between hilarious comedy and heartfelt emotion, Brassic is about irreplaceable, lifelong friends, loyalty and the things that come between them.

The biopic would tell the story of one of the great comedians of his generation. Getting his start in the heyday of Saturday Night Live where Chris Farley would join an all-time ensemble of SNL greats that would include Adam Sandler, David Spade, Phil Hartman and Rob Schneider. From the start, Farley stood out with his great amazing physical comedy delivering iconic sketches like his "Van Down By The River" performance or trying out as a Chip N Dales dancer with Patrick Swayze that live in SNL lore. His success on the show would translate over to the big screen where he would soon join the A-list of 90s comedians with hit films such as Tommy Boy, Black Sheep and Beverly Hills Ninja. Tragically, after being sober for three years, he would relapse and fall back in to drugs and alcohol, passing away from an overdose in 1997. His death shook not just the industry but all lovers of film and comedy and immediately drew comparisons to fellow SNL alum John Belushi, who also died way to young in his own life.

Over 10,000 years before the events of Dune, sisters Valya and Tula Harkonnen join the Sisterhood, an order of women trained to serve the Great Houses of the Imperium as Truthsayers. Mother Superior Raquella Berto-Anirul dies after envisioning a future reckoning (Tiran-Arafel), which she dubs the Burning Truth. Valya uses the Voice to force Dorotea, Raquella's granddaughter/successor, to kill herself before she can destroy the Sisterhood's breeding program. Thirty years later, Valya, now Mother Superior, arranges for Princess Ynez, daughter of Emperor Javikko Corrino, to marry nine-year-old Pruwet Richese, which they expect will stabilize the Corrino bloodline for generations to come while strengthening their control of desert planet Arrakis and its invaluable spice. Imperial Truthsayer Kasha Jinjo has unsettling visions after meeting soldier Desmond Hart, who claims Imperium-based insurgents, and not the native Fremen, were responsible for the ambush that wiped out his regiment. Valya dismisses Kasha's concerns. Visiting a nightclub, Ynez has sex with Imperial Swordmaster Keiran Atrides. Following a conversation with Javikko that reveals his unease with Ynez's marriage, Desmond meets with Pruwet and uses a "great power" to immolate him, an attack that simultaneously immolates Kasha. Seeing Kasha's burning body prompts Valya to recall Raquella's vision. (w/t "HIDDEN HAND")

Follows Robert, a gay man in his early 50s who has recently experienced a series of ghosted, short-lived relationships after his husband of 20 years leaves him without notice. Haunted by the repeated cycle of abandonment, Robert devises a plan to interview six of his ex-boyfriends for a self-made documentary, hoping to gain closure and answers. His exes are a diverse group of characters, each representing distinct phases of his life, from passionate affairs to a deeply complicated on-and-off relationship with Danny, the love of his life. As Robert tracks down each ex, he faces a range of reactions—from indifference and nostalgia to frustration and unresolved resentment. He asks each man a series of pointed questions, probing into what went right, what went wrong, and what they truly thought of him. With each interview, Robert is forced to confront his own shortcomings, illusions, and insecurities that have plagued his relationships. Alongside these interviews, Robert's interactions with his family and friends reveal the loneliness he has concealed with his upbeat façade. The documentary project takes an unexpected toll, leading him to wrestle with unresolved trauma and a fear of intimacy that's greater than he anticipated. Just when he thinks he's gained clarity, he realizes he's only scratched the surface of his own emotional depths.

Late Fame tells the story of Ed Saxberger (Dafoe), who wrote a book of poetry a long time ago that no one ever cared about. When a group of young artists rediscover his work, he must reassess his genius. The wild card in the group is Gloria (Lee), a talented and mercurial theatre actress who toys with affections and who is all set to be admired by Saxberger, this legendary figure from a gritty New York golden age. The film explores the illusory effect of praise on the soul, and the lingering ghostly presence of the past, whether it's imagined or vividly remembered.

Margo Millet's (Fanning) got money troubles. As the child of a Hooters waitress (Pfeiffer) and an ex-pro wrestler (Offerman), she's always known she'd have to make it on her own. So she enrolls at her local junior college, even though she can't imagine how she'll ever make a living. She's still figuring things out and never planned to have an affair with her English professor—and while their affair is brief, it isn't brief enough to keep her from getting pregnant. Despite everyone's advice, she decides to keep the baby, mostly out of naiveté and a yearning for something bigger. Now, at twenty, Margo is alone with an infant, unemployed, and on the verge of eviction. She needs a cash infusion—fast. When her estranged father, Jinx, shows up on her doorstep and asks to move in with her, she agrees in exchange for help with childcare. Then Margo begins to form a plan: she'll start an OnlyFans as an experiment, and soon finds herself adapting some of Jinx's advice from the world of wrestling. Like how to craft a compelling character and make your audience fall in love with you. Before she knows it, she's turned it into a runaway success. Could this be the answer to all of Margo's problems, or does internet fame come with too high a price? (February 3 - May 30, 2025 | w/t "MAYHEM")

Southern Methodist University in Dallas is one of numerous prestigious universities in Texas. The school's football team was the pride of the university and the city. Before the late 1970s, however, the relatively small school had trouble recruiting and struggled to keep up with the big-time football universities that were often more than double its size. Under pressure to compete, the SMU football program engaged in ethics, rules, and recruiting violations for years. When the corruption came to light, the NCAA handed out its most serious punishment in the history of college sports—the "death penalty"—which cancelled the team's entire 1987 schedule. A Payroll to Meet, details the Mustangs' descent into corruption and the fallout when it was discovered. Most egregiously, the football program ran a huge slush fund that was used to pay players from the mid-1970s through 1986. Bill Clements, chairman of the SMU board and soon to be reelected governor of Texas, knew all about the slush fund before the NCAA did. He opted, however, to phase out the payments rather than stop them immediately, for fear that angry players might go public and create still more problems for SMU. Clements and the athletic director Bob Hitch decided that the football program had "a payroll to meet." (Featured on the 2024 The Black List.)

Sheepdogs revolves around Skwerl and Cheese, two elite paramilitary soldiers down on their luck. Skwerl is an ex-Marine who used to work for the CIA's elite paramilitary wing, fired after a raid went bad in Afghanistan. Big Cheese Aziz is a legendary pilot, but the fall of Kabul has left him working the nightshift at a gas station. Skwerl recruits Cheese into an anonymous network of so-called sheepdogs, who operate in the shadowy space between predator and prey. Their mission, which Skwerl convinces a reluctant Cheese to accept, is to repossess a private jet stranded on a remote African airfield. Their fee: a commission on the jet's \$5 million value. But nothing about the job adds up. Their contact goes missing. Their handler is as mysterious as the real source of the money. And when the women in their lives get involved—one pregnant wife and one a dominatrix—the stakes skyrocket. As things go awry, they join forces with an eccentric bomb technician turned off-the-grid survivalist, a lapsed Amish adventurer, a used car dealer elected to Congress, and a case officer known as the White Russian. Together they take a wild ride through the underbelly of modern war and intelligence, hopefully headed for redemption.

Tell Me Lies, tells the story of a young woman's obsession with a man who's good at being charming. When Lucy Albright arrives on the campus of her small college, away from her mother whom she's never forgiven for an act of betrayal in her early teen years, Lucy embraces college life and all it has to offer. But everything changes when she meets Stephen DeMarco, who has a mysterious past of his own. Their addicting entanglement will have consequences they never could have imagined. Season 2 of Tell Me Lies picked up with Lucy Albright (Van Patten) and Stephen DeMarco (White) at war after their dramatic breakup and yet, they found themselves in a new version of their addictive and toxic dynamic – which is as infuriating as it is inescapable. The season also followed the duo's friend group and the Season 1 finale's impact on them.

Things You Should Have Done is a hilarious, offbeat, dysfunctional family-sitcom from the unique comedy mind of Lucia Keskin. Chi (Keskin) is a self-confessed 'stay-at-home-daughter'. She lives a simple life; she eats crisps, makes weird vlogs and watches sitcoms, and that's all she's done for 20 years to be fair. But when her parents, who she is so dependent on, unexpectedly die, Chi is suddenly forced to fend for herself. Chi will inherit the house on condition she completes a list of 'Things You Should Have Done' left by her parents (everything from 'Pet a dog' to 'Get a job'). Meanwhile Chi's highly strung Auntie Karen (Hizli) wants nothing to do with her dependent pest of a niece, but very much wants the house she feels is rightfully hers! In each episode, Chi tackles something from the list and is unleashed on the locals of Ramsgate, who bring something new to Chi's understanding of life but leave wishing they'd never met her.

The stoner comedy, tells the tale of two naive slackers, Sam (Paxton) and Alex (Wyman), who are hired by a frightening cartel boss to deliver a cardboard box from LA to Vegas for the tidy sum of \$10k. The boys think it's their lucky day. Instructed not to look in the box, the duo can't contain their curiosity and as soon as they drive off the property they pull over and have a peek. Much to their surprise and confusion, the box contains six toads. Unbeknown to them they're Sonoran Desert Toads aka acid toads, which when licked, gets the most seasoned drug enthusiasts high out of their minds. On the road, the soaring desert temperatures cause the toads to develop heatstroke, triggering Sam and Alex to jump into rescue mode and give them CPR — and a psychedelic odyssey unfolds. Robinson will play Charles, a charming, yet terrifying crime boss who entrusts the delivery of his precious toads to the knuckle headed Sam and Alex. When Sam and Alex fail to arrive in Vegas on schedule, an enraged Charles and his hulking henchmen are forced to intervene.

Twilight Of The Dead forms the posthumous conclusion of George A. Romero's horror franchise, which began in 1968 with Night Of The Living Dead. In this last of a total of seven films, all that's left of humanity is the female protagonist (The Woman) and the eight-year-old girl (The Girl) who was rescued from her mutated mother at birth. After years of odyssey on a yacht with no human contact, the two end up on a tropical island where two communities have evolved: a male-dominated, voraciously aggressive community and an evolved, matriarchally organized, peaceful community that respects life. Humanity's last stand takes place on this idyllic island with unexpected results.
